# HOT-MELT ADHESIVE SUPPLY UNIT

## Installation Dimensions

## QUATTRO™ ADVANTAGES

- ✓ Easy to operate tank, hose and applicator zone control push buttons.
- ✓ Accurate and reliable single board controller.
- ✓ Digital set point takes the guesswork out of temperature control.
- ✓ Large arrows help the operator to quickly set temperatures.
- ✓ Independent temperature adjustment of the tank, hoses, and applicator guns permit the precise control of adhesive.
- ✓ Temperature standby settings reduce adhesive char when the unit is inactive.
- ✓ Sequential temperature startup heats the tank first reducing stress on the hoses and applicators.
- ✓ 20 pound (9 kg) holding capacity and 22 pound (10kg) melt rate.
- ✓ Available in 200 to 240 single or three phase voltage.
- ✓ High and low temperature alarms on every zone
- ✓ Temperature indicator can be easily changed to Celsius or Fahrenheit.
- ✓ CE marked.

- ✓ **NEW EQUIPMENT AT LOW PRICES**
- ✓ **OEM PRODUCED**
- ✓ **LOCAL SUPPORT WORLDWIDE**
